

MasqueClean W

PRODUCT CODE: 8196053

DESCRIPTION

MasqueClean W is a cleaning agent for wooden elements covered with transparent and opaque paints, e.g. on doors and windows. It is designed to remove dust, insects, and other contaminants that may cause algae and fungi to grow on painted surfaces.

COLOR

Colourless

APPLICATION

Shake before use. Wear gloves (nitrile rubber). Soak MasqueClean into a soft cloth and clean the surface of the window or door, avoiding intense rubbing of the paint coating. After cleaning, rinse the surface thoroughly with water. Reaction time 0.5–5 minutes.

STORAGE/TRANSPORT

Product stability: 24 months at 20 °C
Storage temperature: between 5 and 55 °C
Transport temperature: The temperature along delivery transport must be above 5 °C.

PACKAGING

500 ml.

DISPOSAL OF WASTE

Packages must be empty for recycling.
Consult the authorized waste service manager on the assessment and disposal operations in accordance with the corresponding national legislation.
More information in the Section 13 of the Safety Data Sheet.

SAFETY DATA

Other information into the safety data sheets calculated according to 1907/2006/CE and 2015/830/EU.
Product classification according to Regulation 1272/2008 (CLP).

The given information is normative and based on laboratory tests and practical experiences. The information is noncommittal, and we cannot accept liability for the results obtained under working conditions beyond our control, and consequently the buyer or the user is not released from the obligation to test the suitability of our products for specific means and application methods under the actual application conditions. Our liability covers only damage caused directly by defects in the products supplied by Masquelack.
